CONGRESS.

WASHINGTON, Dec. 13.—SENATE.—A number of bills were introduced and referred during the morning hour. Among them the following:

By Mr. Plumb, of Kansas, a bill to provide for the temporary increase of the army in an emergency. Referred to the Committee on Military Affairs.

By Mr. Conkling, of New York, by request, a bill to amend the laws relating to pensions. He said the bill covered the fees of pension attorneys. He opposed the recent act on that subject, which fixed the maximum rate of fees. Under the operations of this bill, attorneys refused to act. This bill came to him with letters from persons entitled to pensions, complaining that under the guise of protecting them, a law had been put upon the statute books preventing them from securing the services of respectable attorneys. Referred to the Committee on Pensions.

Mr. Gordan, of Ga., introduced a bill to secure a more efficient collection of revenue from cigars. Referred to the Committee on Finance.

At the expiration of the morning hour the Senate resumed the consideration of unfinished business, being Mr. Edmunds' bill in regard to the count of the electoral vote. Mr. Bayard, of Del., spoke in favor of the bill.

Following Mr. Bayard, Mr. Eaton spoke in opposition to the electoral bill. In his judgment there could be constitutionally no legislation upon this question. There ought not to be any interposition by Congress between the States and the constitution in regard to choosing electors. After considerable discussion the bill passed by a vote of 35 to 26. The bill as passed provides that electors of President and Vice President shall be appointed in each State on the first Tuesday in October in every fourth year and on the same day in October whenever there shall be a vacancy in both offices of President and Vice President. The electors are to meet and give their votes for President and Vice President on the second Monday in January next following, at such place in each State as the legislature of such State shall direct. In case of vacancy in both offices of President and Vice President occuring more than two months next proceeding the first Tuesday in October the Secretary of State shall cause notification thereof to be made to the executive of every State. It further provides that each State may provide by law (enacted prior to day named for the appointment of electors) for the appointment of such electors for the trial and determination of any controversy concerning their appointment before the time fixed for their meeting the second Monday in January. The electoral vote shall be counted by the two Houses of Congress on the second Monday of February succeeding every meeting of the electors. Every objection shall be made in writing, stating the reasons, and be signed by at least one Senator and one member of the House of Representatives. Pending an earnest attempt by Blaine to take up his resolution regarding citizens being deprived of Constitutional rights, the Senate adjourned until Monday.

The House went into Committee of the Whole on the Private Calendar without any important action. Adjourned until to-morrow.

Scene in Court.

By Telegraph to the News.

NEW YORK, Dec. 13.—A dramatic scene was enacted in the Court of General Sessions this morning, previous to the sentencing of Dr. Bradford, convicted of causing the death of Sarah Victoria Connors, by malpractice. His counsel made an appeal for a new trial on legal points, and on an additional ground of newly discovered evidence. The prisoner addressed the Court, protesting his innocense, and narrating the manner in which he discovered his new evidence. While in the country a young woman visited him and remarked she had some little things belonging to Vicky Connors. He closely questioned her, and she admitted performing operations upon the girl. At this point the woman who had been sitting in court, rose, and in thrilling tones exclaimed: "It is all true; I confess before God and Jesus Christ that I am guilty and that man is innocent." The woman then made her way to the side of Bradford and gave the details of the crime. She said it was only after continued solicitations on the part of the girl, that she consented to perform the operation, and that she received therefor sixty dollars. Frightened at the consequences of the act, she took the girl to Dr. Bradford. After making her promise to tell he returned her ten dollars out of the sixty dollars, and then left her in the Doctor's office. The woman subsequently gave her name as Madame Cherardi, clairvoyant, of 165 Pierrepont street, Brooklyn. After a brief consultation between counsel, Judge Sutherland quietly turned to the woman and remarked:

"I think we have had enough of your story. You have got through your part of the play."

Assistant District Attorney Rollins, addressing the Court, said: "Hav'nt we had enough of this? This man has added to his many infamies by bringing this woman here to tell her lies," and then moved for sentence.

Judge Sutherland denied a motion for new trial, but granted twenty days to prepare exceptions. He then sentenced the prisoner (who again protested his innocence) to the State's prison for fourteen years and six months. The prisoner, staggered by the sentence, was consoled with by the self-accused woman, who again and again reiterated his innocence. After his removal, Madame Cherardi left the Court, no effort being made to detain her.

The National Board of Trade in Session.

By Telegraph.

WASHINGTON, Dec. 13.—The Executive Council of the National Board of Trade, in session here, agreed to hold its meetings in Washington uniformly instead of in various cities. The Board will urge before Congress the thorough revision of tariff by a competent Commission, and appointment of a similar Commission to unite with one representing Canada, in forming new and broad reciprocity treaty between the two governments; also a modification of the navigation laws, the assertion by the general Government of its authority and jurisdiction over the navigable waters of the country, and the establishment of a department of commerce as a branch of the Government.

The Country's Wheat Crop.

By Telegraph

WASHINGTON, D. C., Dec. 13.—From returns to the Department of Agriculture it is estimated that the aggregate wheat crop will be 425,000,000 bushels.

From Washington.

WASHINGTON, Dec. 13.—The House Naval Committee met this morning, but the Republican members not being prepared with a minority report on the Robeson investigation, the subject was postponed until Tuesday. It was decided to hold a special meeting to consider Representative Harris's bill for the reorganization of the navy, but the date was not fixed.

A resolution looking to an investigation of the official conduct of J. L. Davenport, U. S. Supervisor of Election, has been adopted without objection, after being amended so as to make the investigation extend to his conduct on the days of registration.

Presence of Mind.

NEW YORK, Dec. 13.—A serious catastrophe was avoided this morning by the presence of mind of the principals of Wooster street public school. A fire broke out in the building, but 1,200 children were dismissed without any knowledge of the fact, under the plea that carpenters were coming to work. After all were in safety the alarm was given and the fire extinguished.

Gov. Hampton's Condition.

COLUMBIA, S. C., Dec. 13.—Governor Hampton rested comfortably last night, and the attending physicians report him as much improved to-day.

A Correction.

Correspondence of the News.

RALEIGH, Dec. 13.

In your notice of the election of Gen. W. R. Cox, Grand Master of Masons, you state that he is the first Grand Master ever elected from Wm. G. Hill Lodge, No. 218. In justice to Wm. G. Hill Lodge, as also the brother, I beg to state that P. Grand Master R. W Best was the first grand officer elected from Wm. G. Hill Lodge. He was elected S. G. Warden, appointed Deputy Grand Master, and elected Grand Master after he had connected himself with said Lodge.

A MASON.

Our Commercial Marine.

Washington Post.

With a wise and liberal policy on the part of Congress, our commercial marine could be restored to its former relative position; and with the executive and legislative departments cordially co-operating to build up our foreign trade, we might soon enter upon a career of prosperity unexampled in history. This is within our reach, if we care to possess it. The present inactivity and indifference on the part of the Administration and of Congress will keep us in a position secondary to almost any other commercial people in the trade that rightfully belongs to us—the trade with our neighbors.

Cigar Making by Machinery.

An ingenious inventor in New Orleans has succeeded in bringing to perfection a machine which has hitherto baffled the inventive genius of every one who has attempted to accomplish by machinery what has always been done by hand. The invention in question is a cigar making machine, and is now in actual operation in New York, and can be worked by any inexperienced boy or girl without wasting the material. The inventor is a Mr. Hachnel, and his invention is said to be a most sensible contrivance. It is neither higher nor larger than a sewing machine, and is worked by a treadle. The bunch as it comes out of the mold in use by every cigar manufacturer, is placed in a small oblong receptacle. The treadle is put in motion, the end of the wrapper is placed at the tuck of the bunch, and evenly but rapidly it is rolled around the bunch till a simple mechanism connected with a paste distributing apparatus forms a head to the cigar, and in such a shapely and uniform manner to be difficult of imitation by a skilled workman. The bunch is not compressed, but the wrapper is pressed to the bunch, leaving the latter in the desired elastic condition. The wrapper required by this machine is only half as large as that now used in making cigars by hand. To cut such a small piece a die accompanies the machine. The inventor claims that it will be an absolute protection against the strikes which have proved so troublesome in this business.

The Senatorial Question.

Tarboro Southerner.

It is said by the papers that copies of a certain paper are being circulated in the State and mailed to each member of the legislature, containing charges against Governor Vance and in the interest of Judge Merrimon. We trust the claims or aspirations of Judge Merrimon will not be considered by any Democrat until he promises unequivocally to abide the decision of the caucus. This, his letter to the Raleigh merchants does not do. It seems to have been intended for the obscuration of ideas. He uses words as a "vehicle to obscure thought."

If he defeats, with the aid of the Radicals, the Democratic caucus again, we would not give a farthing for any future discipline. If Judge Merrimon will come out like a man and submit his claims to the caucus we will loudly extol his action, but we have the heartiest contempt for this double-dealing—taking too chances as it were.

Plans for a National Militia.

A general convention of the leading military officers of the different States is to be held in New York in January, to take whatever official action may be necessary to make the militia force of each State an efficient military organization, and to present to Congress the plans proposed in support of all bi to appropriate $1 000,000 annually for the purchase of arms, ammunition, and other ordnance and quartermasters' stores and for the general benefit of, and to be proportionately divided among the regularly organized and uniformed militia of the different States, in accordance with such rules as may be prescribed by a mixed board of army and militia officers appointed by the President.

Fractional Currency.

The amount of fractional currency outstanding is about $16,000,000. It is estimated that at least $12,000,000 of this amount will never be presented for redemption, it having been long destroyed by constant use. The Treasury now holds $10,000,000 in legal tenders for the redemption of the fractional currency, and a bill has been offered in Congress by Mr. Dibrell, of Tennessee, which authorizes the Secretary of the Treasury to make use of this fund in the purchase of that amount of five-twenties.

AGRICULTURAL NEEDS

The Farmers Demoralized--The Power of the Press for Good.

Correspondence of the News.

WAKE FOREST, Dec. 12th.

Allow me to a pear in your paper again, to thank Mr. L of Asheville, N. C, for his able and valuable article of Nov. 11th, in answer to my former one. His ideas are clear, his suggestions good. It is a patent fact that the crops are short and prices low; that the laborers of the country are demoralized; that destitution, hunger and theft may be expected. In the article of labor and supplies there must be a link made somehow, before another crop can be matured. Hundreds of our population will be hunting work and finding none. Perhaps a laborers' and employers' office established in Raleigh, open to both sexes out of employment, to register in the press, would meet the wants of many. The press, talent and wise counsellors on farm management, must come to the front. Ignorance can never improve our school system and fill every school house. Ignorance can never better farming interests, and give employment to all who seek it. Ignorance cannot meet our vital needs just now. Talent through the press must solve all these problems.

The Legislature of Jan. 1867, resolved itself in a joint council, and held sessions nightly for two weeks, which body worked on double duty, day and night, to settle the question as to how it should give relief to the people. Every bill and every measure which came up for that purpose was met by the lawyers, and pronounced unconstitutional. We must not look to the Legislature, but to the people, the intelligent people and press, to help the farming interest up to that standard, and to take the rank which it must ere long.

Your correspondent L. has done a noble work, who will be the next to follow him? I hope the subject will be taken up and sifted and culled to the better education of farmers in farming. If we get nothing more, let us study L's. article and improve upon that. S.

Official Bonds.

Correspondence of the NEWS.

ROXBORO, N. C., Dec. 12.

Did it never occur to the members of the General Assembly how unequal our statute law is in regard to the bonded county officers of the State? The law as it now stands is, in effect, the old Colonial law, handed down to the present, from a hundred years ago. The official bond of a Clerk of the county court and of a Sheriff was two hundred pounds, no more, no less. After the establishing of independence and the change of currency, the bonds were put at ten thousand dollars—the same in all the counties; and the same law has been handed down, through all the mutations of time, to the present day.

The object of official bonds is to secure the public against loss on account of unfaithfulness on the part of public officers, and the penalty of the bond should be, as near as possible, the measure of responsibility on the part of the officer; that much, and no more. If it is not that much, the public interest will not be properly guarded; if it is more, it is oppressive to the officer.

There are ninety-four counties in the State. Seventy of these counties have only one representative each in the General Assembly; twenty-three have two representatives each; and one has four. The number of representatives indicate the number of inhabitants, and the number of inhabitants is the best indication of the amount of official business in each county, and the measure of official responsibility. But the Clerk and Sheriff of Clay and Currituck are compelled by law to give an official bond in the same amount as the Clerk and Sheriff of Mecklenburg and New Hanover, aye, of Wake, with her four representatives

If a ten thousand dollar bond is sufficient for the Clerk and the Sheriff of Wake, then a two thousand five hundred dollar bond ought to be enough for small counties having only one representative. But, on the other hand, if it must be that these officers in small counties are required to give a ten thousand dollar bond to insure the public against loss, then the same officers in large counties ought, for the same reason, to be required to give bond in an increased ratio, according to the measure of their several responsibilities. Just look at the case: Clerks and Sheriffs in small counties, which can afford only one representative, required to give official bonds in the same amount of these same officers of the largest counties in the State! There never was a more unequal law upon the statute book. And there have been cases in which it has worked a very great hardship in small counties. A five thousand dollar bond is much easier to make than a ten thousand dollar bond, and it is a better security for officers in small counties than a ten thousand dollar bond in large counties. And, since the loss of property by the war, and a loss of confidence to a great extent, people are much more cautious about signing bonds than before the war. And moreover, officers can't give straw bonds if they were so disposed. Every official bond must be justified to the full extent of its face. This greatly reduces the number in small counties who can be of any service on official bonds, and then, when the matter is brought down to those who are both able and willing, they are very hard to find.

As a matter of justice and equality this matter ought to be better regulated, and it is here suggested, that the Legislature enact that the official bonds of the Sheriff and Clerk of the Superior Courts shall be five thousand dollars for each representative in the General Assembly from their respective counties. This would be as good security as the present law for all of the large counties and better for some, and amply sufficient for the smaller counties, and the penalty of the bond would then be regulated by the measure of responsibility, which is not the case as the law now stands. EQUITY.

The Coin of the World.

Washington Post.

If demonetization of silver be desirable in the United States, the logical conclusion is that the single gold standard should be adopted in all countries. It is estimated that the stock of gold and silver now current as coin or existing as bullion is 6,750 millions of dollars, of which 8,250 millions is in silver. It will scarcely be contended that there is too much metallic money in the world. If the amount were reduced almost one-half by universal demonetization of silver, how would the void be filled? This is too serious a question to be answered with sneers and epithets.

Our Washington Letter.

Staff Correspondence of the News.

WASHINGTON, Dec. 11.

THE NEGRO TO BE ABANDONED AND DISFRANCHISED.

The negro must vote with the Republican party or be disfranchised. Blaine's speech in the Senate to-day means that. He said the issue before the county was no longer one of "sentiment" for the negro voter. It was no longer a question of the equality of the black voter with the white voter of the South.

THE REMEDY.

Blaine's resolution does not provide a remedy. It was intended only as an advertisement of his candidacy for the Presidency in 1880. But the less ambitious Mr. Page, of California, does suggest a remedy in a bill introduced by him, and now pending in the House. The bill provides—

"That from and after the fourth day of March, Anno Domini eighteen hundred and seventy-nine, the State of South Carolina shall be entitled to two members of the House of Representatives, upon the basis of the whole number of white inhabitants of said State, to wit, two hundred and eighty-nine thousand six hundred and sixty-seven, as shown by the census of eighteen hundred and seventy."

All this means that when the negro ceases to be a Republican voter, he ceases to be an American citizen.

SCENES IN THE SENATE.

Long before 1 o'clock the Senate Chamber was crowded far beyond its capacity. The galleries, aisles and doorways were filled by ladies. Every inch of space on the floor of the Senate Chamber was in demand. Dozens of ladies who could not find accommodation in the galleries were admitted to standing privileges on the floor. The important bill regulating inter-State commerce and prohibiting unjust discriminations railroads, was pending in the House. "Send for me if there is an aye and no vote," each member would say as he burriedly left the hall. Precisely at 1 o'clock Mr. Blaine arose. Mr. Thurman arose simultaneously and offered an amendment to Blaine's resolution. Mr. Blaine hoped the honorable Senator from Ohio would defer his amendment a few minutes. It was his right not to have the amendment read. Facing Mr. Thurman he began a carefully and elaborately prepared speech. The delivery of the speech occupied thirty-five minutes. Throughout its delivery he closely eyed Thurman. He looked proudly over Conkling's ambrosial locks, and did not seem to observe that Senator Ransom was engaged in writing a letter. The speech elicited but little applause, and no hand-shaking. "There is more in it than appears on the surface," said several. Blaine took his seat and every eye was turned on Thurman. He was supported by Representative Robbins, who occupied a seat on his left.

He offered his amendment, and it was read in a sing-song way by the reading clerk. He did not essay a reply to Blaine's speech. The investigation contemplated by the resolution was impossible at this session of Congress. He characterized Blaine's speech as an attempt to array a "solid North" against a "solid South." His charges of fraud and violence at the South were unsupported assertions. Admitting what Blaine said was true, there was a greater danger to American institutions—the corrupt use of money in controlling elections. He was several times applauded. The Democrats, generally, were pleased with his reply. In the exuberance of feeling, much was said about Mr. Thurman and the Presidency. Senator Lamar, supported by Representative Waddell, who gracefully posed on the back of his chair, next addressed the Senate. His speech was a masterly and eloquent vindication of the South. Twitted by Blaine he lost his temper and called him a Senatorial liar. Blaine gave notice that the resolution would be pressed to a vote.

IMPORTANT RAILROAD LEGISLATION.

The House to-day passed Mr. Reagan's bill regulating inter-State commerce and prohibiting unjust discriminations by railroads. Representative Steele was among the Southern Representatives who voted against the bill on constitutional grounds. The bill provides:

That it shall be unlawful for any person or persons, engaged alone or associated with others in the transportation of property by railroad from one State or Territory to or through one or more other States or Territories of the United States, or to or from any foreign country, directly or indirectly to charge to or receive from any person or persons any greater or less rate or amount of freight, compensation, or reward than is charged to or received from any other person or persons for like and cotemporaneous service, rendered at the same time, in the carrying, receiving, delivering, storing, or handling of the same. And all persons, engaged as aforesaid, shall furnish, without discrimination, the same facilities for the carriage, receiving, delivery, storage, and handling of all property of like character carried by him or them, and shall perform with equal expedition the same kind of services connected with the cotemporaneous transportation thereof as aforesaid. No break, stoppage, or interruption, nor any contract, agreement, or understanding, shall be made to prevent the carriage of any property from being and being treated as one continuous carriage, in the meaning of this act, from the place of shipment to the place of destination, unless such stoppage, interruption, contract, arrangement, or understanding was made in good faith for some practical and necessary purpose, without any intent to avoid or interrupt such continuous carriage, or to evade any of the provisions of this act.

SEC. 2. That it shall be unlawful for any person or persons engaged in the transportation of property, as aforesaid, directly or indirectly to allow any rebate, drawback, or other advantage, in any form, upon shipments made or services rendered, as aforesaid, by him or them, which rebate, drawback, or advantage is not allowed to all other persons for whom like services are performed.

SEC. 3. That it shall be unlawful for any person or persons engaged in the carriage, receiving, storage, or handling of property, as mentioned in the first section of this act, to enter into any combination, contract, or agreement, for the purpose of defeating the intention of this act, by changes of schedule, carriage in different cars, breaking car-loads into less than car-loads, or by any other means, with intent to prevent the carriage of such property from being continuous from the place of shipment to the place of destination, whether carried on one or several railroads. And it shall be unlawful for any person or persons carrying property, as aforesaid, to enter into any contract, agreement, or combination, for the pooling of freights, or to pool the freights, of different and competing railroads, by dividing between them the aggregate or net proceeds of the earnings of such railroads, or any portion of them.

SEC. 4. That it shall be unlawful for any person or persons engaged in the transportation of property, as provided in the first section of this act, to charge or receive any greater compensation per car-load of similar property for carrying, receiving, storing, forwarding, or handling the same for a shorter than for a longer distance in one continuous carriage.

The Sugar Tariff and the Sugar Trade.

Springfield Republican.

One of the most interesting single topics for consideration, in regard to revising our complicated tariff, is the sugar question; partly because the amount of revenue now raised from sugar is so large, ($37,000,000 out of a total of $128,000,000 customs duties), and partly because of the important and curious questions it involves. It appears that the United States now consume annually about 740,000 tons of sugar and molasses, which is just about one-fourth of the whole reported consumption of the world. Were our sugars imported duty-free, this consumption would probably increase to more than 1,000,000 tons annually, and we should also refine much imported sugar for export. The American refiners are now the first in the world in the economy of their processes. Sugar is their raw material, as they pay heavy duty, but they are also allowed a drawback on all they export, which theoretically restores to them what has been taken in the form of duty. The process of production is laborious and in one sense, costly, for it adds one cent a pound, at the least calculation, to the original cost of the sugar imported—and this is from 20 to 40 per cent. of the original cost. Then comes in the tariff and adds from 40 to 100 per cent. more to the original cost, which the refiners have to pay in the first instance, and the consumers, of course, in the end. Now sugar has become an article of practical necessity to our people, and no longer a luxury, as it was once considered. We consume at present, of foreign and domestic sugars—to say nothing of "glucose,"—something less than 35 pounds per capita, for our whole population, and this consumption is increasing. In readjusting the sugar duties, for which a bill is now pending in Congress, or before the ways and means committee, it is of great consequence to the whole people as well as to the sugar importers and sugar refiners that the rates should be such and the mode of collecting them so impartial, that our own industries, whether in Boston, New York, Baltimore or Louisiana, shall not suffer, while the industries of Cuba and the other Spanish American islands are fostered at our great expense.

Another View of the Solid South

Vicksburg, Miss., Herald.

The "Solid South" is rather indifferent about the question of the next presidency, in comparison to the interest it feels in others. There is a feeling rapidly growing in this section that we have wasted too much effort in trying to elect a President, and that it will be better for us if we devote our efforts in the future to securing material benefits. We need a Southern trans-continental railway, we wish the Mississippi valley reclaimed, and we want the privilege of self-government, and our people think it better to devote our energies to securing these than to waste them on heated, barren presidential contests. There are many Southern people who earnestly wish the Southern Democratic party to have as little as possible to do with the presidential nominations, and to take choice of the candidates after our Northern friends select them. What we want is the most available man who has a good record, and who will treat the South with justice. We ask no place on the ticket, and are willing to leave it to those who select for us the most available man to say how many and what cabinet positions shall be given the South, in the event of Democratic success. All the South asks is the right to protect herself from ignorance and rascality, and a chance to build up her waste places under the rule of just Northern men. The Solid South is modest in her requests.

A Cold Blooded Murder.

Wilmington Review.

A most cold blooded and brutal murder was committed on the plantation of Mr. J. A. Evans, in Brunswick county, about twelve miles from this city, and we are pleased to state that the murderers have been arrested and lodged in the Smithville jail. Mr. Evans has had a man by the name of McDuffie, formerly of Pender county, employed as a wood cutter for some time past. On Monday, about sundown, Mr. Evans saw two colored men, by the name of Davis, who are brothers, pass his house, going in the direction of McDuffie's cottage. They were armed with guns and passed Mr. Evans' on a run. They called McDuffie out, asked him if had said "so and so," and then shot him. On their way to McDuffie's house they told a colored man that they were going to kill McDuffie if he said he had told "so and so" about them. The Davis brothers were captured about eleven o'clock on Monday night at Meares' Bluff.

Startling News From Berlin.

The speech of Count Eulenberg, in the Prussian diet, excited much attention at the time of its delivery, and has since formed a prominent topic of conversation. The count, in advocating the declaring of Berlin in a state of siege, said the Government was in possession of information of the most important and startling character which could not at present safely be made public. All that could be said was that the government believed in the existence of a secret revolutionary organization bent upon the overthrow of the kingdom and of the empire, using assasination as its weapon and working in the dark. The people of Berlin should make up their minds to trust the government fully, to give it the extraordinary power for which it asked, and not to shrink from temporary sacrifices which they are called upon to make for the preservation of the peace of society and for the exterpation of wicked and misguided men who sought to bring on a reign of anarchy and ruin.

STATE AGRICULTURAL SOCIETY.

Meeting of the Executive Committee--Report on the Practical Workings of the No Fence Law.

The Executive Committee of the N. C. Agricultural Society held an important meeting at the Yarborough House on Thursday night, 12th inst. Present: Col. Thos. M. Holt, President, Messrs A. Creech, Dr. Eugene Grissom, N. S. Harp, Julius Lewis, John C. Blake Dr. P. E Hines, John Nichols, W. G. Upchurch, Maj W. H. Bagley, P. A. Wiley, Treasurer, and C. B. Denson, Secretary.

The Treasurer rendered a full and satisfactory statement, which was referred to a committee, consisting of Messrs. Blake, Lewis and Upchurch.

The Secretary presented the report of the Committee appointed at the late annual meeting of the N. C. Agricultural Society, to investigate the workings of the fence law, in the county of Mecklenburg.

He also reported that the Committee appointed to learn the views of the farmers of the State upon the desirability of the law laying a tax upon the sale of fertilizers, had been prepared and was undergoing examination by one member of said Committee resident at a distance.

On motion of Mr. P. A. Wiley, it was resolved that the thanks of the Executive Committee be tendered to the gentlemen who have made these investigations in behalf of the farmers of the State, and that their reports be published, and a copy forwarded to the Commissioner of Agriculture.

General discussion then ensued, and many excellent suggestions were made for the benefit of the Society, and the improvement of the Annual State Fair. The report of the Committee on the workings of the fence law will be found below.

TARBORO, N. C., Nov. 20 1878.

To the Executive Committee of the N. C. State Agricultural Society.

GENTLEMEN: The undersigned Committee, appointed by the N. C. State Agricultural Society, to visit Mecklenburg county, in this State, and gather information in regard to the working of the Fence Law, in that county, giving attention to the opinions of all classes of people in regard to it, after a trial of several years, &c., respectfully report:

That they took advantage of the opportunity to meet the farmers of Mecklenburg, during the Fair of the Carolinas, at Charlotte, on the 14th and 15th insts. There they talked with farmers from nearly all parts of the county, and found a most decided endorsement of the advantages, convenience and economy of the law, and were informed that many, who were at first opposed to the law, have become reconciled to it; and admit, not only its economy, but its convenience and its advantages. Of course there are some who do not like it, but so far as we could learn, from inquiries made of many farmers from various parts of the county, the above seems to be the decided sentiment of a decided majority of the people of the county.

Respectfully,

Signed, WM. S. BATTLE, P. E. SMITH, D. W. C. BENBOW, J. A. DUNN, Committee.

The Edgecombe Election Case.

Goldsboro Messenger.

The Edgecombe county mandamus proceedings, instituted by O'Hara against the County Board of Canvassers, to compel them to re-assemble and count the vote of the rejected townships, was heard before Judge Seymour at Rocky Mount on Monday, Hon. W. T. Dortch, R. H. Battle, Esq., and Messrs. Spier Whitaker and W. H. Johnson appeared for the Board, and Judge Howard and Messrs. Fred Phillips and W. H. Day for O'Hara. The case was elaborately argued on both sides, as might be expected from the array of able counsel, but Judge Seymour withheld his decision, which he will render in a few days. It is thought that he cannot compel the Board to recount.

An Interesting Point to House Renters.

It has been decided by a New York court that when a person who has hired a house is unable to obtain possession through the refusal of the old tenant to to move, the landlord is not legally bound to refund the rent that may have been advanced. As a failure to take possession is caused by the wrongful act of a third person, and not by any act of the landlord, it is held that the latter is not liable to the new tenant for the consequences of the wrong. Persons renting houses will consequently do well to make a point of getting fairly installed before they pay the landlord.

$4,000,000, to be Given Away.

The Mutual Life Insurance Company of New York, besides its vast assets of $85,000,000, ($23,000,000 more than all the Banks of New York combined,) has accumulated about $4,000,000 from lapsed and surrendered policies since 1873 which it agrees to givd to new applicants for insurance as follows, viz: 30 per cent. of the premium the 1st and 2nd years, on ordinary Life Polices and 15 per cent. on term or endowment policies. The dividends in this company have for more than 10 years averaged 38 per cent. 2 years dividends will be deducted from the 3rd years premium. Hence the great demand at our office for policies and the terrible howl among the smaller Insurance Companies. For particulars and policies apply by letter or in person to P. F. Pescud, General Agent for N. C., Raleigh, N. C.

A Change of Public Opinion.

In the history of all systems of finance connected with raising a revenue for public purposes, history works in a circle. The tide seems setting strong in public opinion in favor of honestly managed, properly conducted lotteries, such as the Louisiana State Lottery, organized in 1868, for Educational and Charitable purposes. The scheme offered for the next drawing is extraordinarily liberal. The price of tickets only two dollars, gives every one a chance to win $30,000, or a less sum. For particulars write to M. A. Dauphin, P. O. Box 692, New Orleans, La.

The Smokers' Paradise.

The delights of this elysium have been sung by many of the devotes of the weed. But none are so competent to speak of its blisses as those who purchase their tobacco and cigars from the elegant little store of F. Gruendler, opposite the postoffice. *

An Atiractive Display.

Particular attention is directed to the attractive advertisement of Mr. J. A. Bragassa, who has recently opened a strictly first-class confectionary and fancy store on Fayetteville street. His selection of toys is admirable and varied. No better opportunity can be found to make Christmas purchases. The stock of confectioneries is choice and full lines of fruits and delicacies are kept on sale. The store will be found a pleasant place to visit, and the gentlemanly proprietor gives special attention to customers.

"Darling Love Me Once Again."

Is the title of a new piece of sheet music, edited and published by Mr. Henry C Wyatt, of Richmond, Va. Aside from its claim as a Southern production, we can cheerfully recommend it, after a tohrough trial as a ballad of rare merit and exquisite sweetness. Mr. Wyatt is the author of several others, viz: "Do you think I could forget thee," "Treasured frendship," "Father's hair is turning gray," etc., which we have never had the pleasure of trying, but this last, we predict, is destined to win its way into popular favor, and at once stamps its author as a poet and musician of no small merit. *

DAILY NEWS

SATURDAY,.....DECEMBER 14, 1878

ORGAN OF THE DEMOCRATIC PARTY

The News Building, No. 6. Martin Stree

The annual report of the State Auditor for the fiscal year ending September, 30th, 1878, has been sent us by that officer. The volume is in all respects superior in typography to its predecessor, while the preparation of the matter shows not only much care but great good taste in its arrangement. The classification of the items of receipts and disbursements is so complete that reference to any subject sought is made easy. The report contains complete tabular statements of receipts and expenditures. From these we learn that the receipts of the Educational Fund for the last fiscal year were $12,592.39, for Public Fund $533,322.04, a total of $546,914.43. To this is added the amount before on hand of $111,980. 94, making the total amount available $657,800.37. The disbursements of both funds for the year were: Of Educational Fund $4 915.03, Public Fund, $534,187.07; a total of $539,102.10. The balance on hand in the Treasury Oct. 1, 1878, was, therefore: Educational Fund, $18,600.26; Public Fund, $100,-193.00, a total of $118,793.26.

The aggregate amount of State taxes derived from the various subjects of taxation was $506,597.37. The number of white polls in the State was 107,702, colored, 54,382. The value of the land in the State is put down at $74,744 905; of town property, $17,413,340; of horses, mules, cattle etc., $16,833,509; of farming utensils, money on hand or on deposit, solvent credits, etc, $37,378,739. The total valuation of real and personal property, was, therefore, $146,370,403.

Popular Wants--The Poll Tax.

The Constitutional Amendments of 1875 reaffirmed what may be regarded as one of the most objectional features of the Constitution of 1868, the unqualified right of every male citizen to the privileges of an elector, without any condition whatever of qualification except the modifications made by those amendments in respect to certain persons disfranchised for crime or certain designated offences.

That the framers of the Constitution of 1868 should have erred in giving limitless latitude to the delicate and responsible privilege of suffrage, was natural. They were propagandists of new theories as broad in their liberality and as visionary in the expectation of beneficent effects as were ever the mad zealots of the French revolution. They were emancipators of a race, held to subjugation through the whole of human history and delighted to indulge them, like children in the possession of toys, with the most unrestrained use of their new possession, and to these charcteristic they added that of political adventurers, possessed of new and unfriendly territory, arming themselves with the most efficient of weapons to retain their supremacy. From their point of view, with the whites to abase and the negro to exalt, they did wisely. Their astute recognition of, and prompt grant of a coveted right, is creditable to a sagacity which looked to numbers to control affairs, and hold in check those elements of intelligence, order and property, upon which solicitious statesmanship seeks to lay the foundation of permanent social stability.

But it is not so apparent why conservative counsels, enlightened by the experience of ten years of the use of privileges which had divested of all its sacredness, and used so often as a venal and corrupt implement of party warfare, or the occasion of indecent struggle for its possession, did not direct attention to the true principles of suffrage, and restrain it within limits defined by reasonable comprehension of its nature.

It is most certain that suffrage is not held to be a natural and inalienable right, absolutely independent of duties and qualifications. It is a right which exists only in constitutional governments, and in most of those doled out with churlish parsimony, and only then after centuries of contest, and the slow unfolding of the pages of human rights. In republican governments it is the wise and just purpose to remove all needless restrictions which may trammel the use of it. But even in these, the fundamental principle of all government cannot be safely abandoned. The fact cannot be disregarded with wisdom or safety that there are duties reciprocal between the government and the people; the main duty of the government being to protect the citizens in the possession of life, liberty and property, and to that end necessitating a costly machinery of administration. The duty of the citizen in compensation of his protection is his contribution in taxes levied on person or property to enable the government to perform its appropriate functions of provision and protection. As the sums thus collected are large, as the duties to be discharged are responsible, and as they must be entrusted to the direction of proper and efficient agency, so it is right that the contributor should have a direct voice in the selection and control of that agency.

But it happens, under the latitudinarian construction of the right of suffrage that this power of control over the action of the government is exercised equally by those who contribute to the support of the government and those who do not.

This is the condition in most of the United States. Some States have fixed a qualification, as of education or of property, as a prerequisite for voting. Others, as Georgia, have made the poll tax such prerequisite, and such is the qualification that is asked to be engrafted into the constitution of North Carolina.

Suffrage is not an absolutely natural right, because even in its most unqualified extension, it is denied to those under twenty-one years of age, even where there is a perfect maturity of judgment and fullness of information to make its exercise safe, or where there are duties to the State exacted, as in military service or work on the public roads. It is not an inalienable right, for it is taken away for crime or misdemeanor. If, then, neither natural nor inalienable, it is certainly within the power of the State to regulate it at least to the extent of exacting the performance of a reciprocal obligation. The prepayment of the poll tax is the simplest and least burdensome of all forms of discharging that duty. The amount is so small that it oppresses no one. Its exaction is so just that it can offend no one; and in this State the application of the poll tax fund is so beneficent in its purpose and so impartial in its distribution that all alike, rich and poor, white and black, might unite with earnest effort to see to it that all was collected. If the poll tax were all faithfully paid in, then there would be less of that complaint which threatens the common school system with destruction. It was sagacious and enlightened policy that forever sanctified the poll tax fund to the support of the common schools. If they have languished, it is because the taxpayer is unfaithful to his duty.

But, aside from any special use of any fund arising from the payment of any tax, it is eminently unjust that he who does contribute to the support of the government should have his contributions controlled by those who do not; worse than that, that they should possess the power at any time to exact further increase of those contributions, and compel interested disposal of them. This is worse than taxation without representation. It is a governing power without responsibility, and discharged from all obligation whatever, controlling without limit the rights and the property of those upon whom the burden is made to fall.

Those who enjoy all the benefits of a government without any cost to themselves, may object to any change which may abridge their privileges. But those who bear all the burdens stand in hourly dread of that hour when their burdens may be increased. When all are compelled to contribute alike, on the same fundamental principle of justice, then all will move with circumspect prudence, and all guard the public expenditures with more jealous eye.

And while a proposition of this kind would go forth to encounter all the arts of the demagogue, always alert to practice upon the fears or the prejudices of the people, yet, the rights of those who now alone bear the weight of public burdens, and even the sense of justice of those who are now exempt, will agree upon a more fair distribution when it is so clear that no injustice is done to any, and that the interests of all are considered.

SAVE YOUR HAIR

TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S

KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale. It is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, as the following is

A FAIR SPECIMEN.

I have entirely bald for several years, consequently, I suppose. I used a few bottles of Kathairon, to my great surprise, I have a thick growth of young hair.
JOHN L. TORRANCE, U. S. A.

The unperfumed Kathairon is also incomparable. It is recommended

To Remove Dandruff.
To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no mere dye of sulphur and sugar-of-lead, to paint the hair and paralyze the brain. It is purely a fine vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful hair dressing known. No lady's or gentleman's toilet is complete without Lyon's Kathairon.

VEGETINE

WILL CURE CANCER!

PROOF! PROOF!! PROOF!!!

H. R. STEVENS, ESQ.:—
Dear Sir,—About two years ago, a Cancer made its appearance on my face, left side of my nose. When I first noticed it, 'twas about the size of a pinhead (very small). It increased in size, and spread on my face until it became as large as a common cent. I tried all kinds of remedies, and advice from a physician. It was spreading, and eating into my flesh very fast. I was very much alarmed. I went to see a physician who cured Cancers: he did not give me much encouragement. It pained me very much; I suffered night and day. It would bleed at times very profusely. Everything was done that could be to try to cure the cancer. My brother had a cancer on his lip; he submitted to an operation, being well discouraged I was one day in Mr. Woodberry's apothecary store of this town. He gave me your pamphlet, containing many cures by the use of Vegetine. I found on page 18 where Vegetine had cured a cancer on a lady's nose. I then bought a bottle of your Vegetine and it proved a great blessing to me; I could see good effects from it right away. After taking three bottles, it stopped the spreading of the cancer about the edges, and check'd the eating into my flesh. I could see it was gradually healing. I kept on taking Vegetine, the cancer slowly disappearing, until I had taken sixteen bottles and it completely cured it. It has left a large scar on one side of my nose; and I feel it my duty to recommend Vegetine to all sufferers, as it is certainly a great 'Blood Purifier.' I am now sixty-three years of age, and Vegetine has greatly improved my general health.
Yours most respectfully,
WM. P. CLEAVES,
34 Federal St., Beverly, Mass.

We, whose names are annexed, can testify to the above as Mr. Cleaves is an old resident of this town.

VEGETINE for eradicating all impurities of the blood from the system, has no equal. It has never failed to effect a cure, giving tone and strength to the system debilitated by disease.

CURED AFTER 20 YEARS SUFFERING.

READVILLE, MASS., Feb. 18, 1872.

H. R. STEVENS, ESQ.:—
Dear Sir,—It gives me great pleasure to give in my testimony to the good effect the Vegetine has had on me. I have been troubled for twenty years with an eating Ulcer on my shin-bone. During that time I have tried many remedies, but have not had it cured til now. Some three months ago it was very bad so that the flesh was eaten into the bone, from a place as large as the palm of your hand. I was recommended by Mr. Tolton to try your Vegetine, and I did so. In taking the first bottle, it commenced to eat; and I have only five bottles and it is all healed nicely, and I would cheerfully recommend it to all alike afflicted.
Respectfully yours,
WILSON SEARS,

Vegetine thoroughly eradicates every kind of humor, and restores the entire system to a healthy condition.

Vegetine

A VALUABLE MEDICINE.

CINCINNATI, 1877.

H. R. STEVENS, ESQ.:—
Dear Sir.—I have used your Vegetine in my family, and know it to be, and can recommend it as a good purifier and cleanser of the blood. I have used several bottles; it is a valuable medicine.
Respectfully,
D. B. TEBBITT, Grocer,
N. E. Cor. Main and Franklin Sts.

Thousands will bear testimony (and do it voluntarily), that Vegetine is the best medical compound yet placed before the public for renovating and purifying the blood, eradicating all humors, impurities, or poisonous secretions from the system, invigorating and strengthening the system debilitated by disease; in fact, it is, as many have called it, "The Great Health Restorer."

CIRCULAR SAW MILL.

LEVER FEED CUTTER.

Hege's Improved Circular Saw Mill, is not a new and untried saw mill, but is one that is well and favorably known in many sections, and wherever it is introduced it is fast superceding all others. It is simple in construction, yet reliable in operation, and is sold for less than any other first class saw mill. Send for descriptive circular

Lever Feed Cutter,

Something entirely new and novel in the feed cutter line. With this cutter the feed is cut off diagonally, instead of square across, as is the case with all other cutters at the same time our cutter has a draw cut, acting exactly on the same principle that a knife is used is cutting off a stick, consequently with our Diagonal Feed Cutter we can cut more feed with less labor in a given time than any other cutter costing twice as much.
Price reduced to $8,00. Send for circular. Liberal discount to agents. No goods consigned. Manufactured by the Salem Agricultural Works, Salem N. C.

DAILY NEWS
RALEIGH, ... DECEMBER 14, 1878

Events in the State.

NEW HANOVER.—Wilmington Sun: About 200 men are out in the swamps, in search of the outlaw Johnston, and his companions.

LENOIR.—Goldsboro Messenger: A grand military ball was given at Stanyard Hall, in Kinston, complimentary to the Kinston Rifles, last night.

ENGECOMBE.—Tarboro Southerner: Our jail contains only seven prisoners, as we told. This is the smallest number we have had in jail at any time since the late unpleasantness."

JONES.—Newbern Notshell: A large and enthusiastic meeting of the citizens of Jones county was held at Pollocksville, for the purpose of memorializing Congress for an appropriation for the improvement of the Trent river.

CUMBERLAND.—Fayetteville Gazette: Abram Deal, residing on the Wilmington road a short distance from Fayetteville, died last Friday, 6th inst., aged 107 years. He was a soldier in the war of 1812, and was then in middle life, being 41 years old.

IREDELL.—Statesville Landmark: For the past two weeks business in the mercantile line has been very brisk..... Some unknown parties entered the Office of the Internal Revenue Collector Monday night and tried to force the safe open.....Mr. Portland Gay, a worthy citizen and well-to-do farmer of Oak Forest township, dropped dead while on his way from his home to Union Church.

CHATHAM, Record: On the 7th inst., the Rev. Dr. Sutton and wife, of this place, celebrated their "silver wedding," being the twenty-fifth anniversary of their marriage....The next term of the Inferior Court will be held on the third Monday in January. Two terms a year are held, one on the third Monday in July and the other in January.

WAYNE.—Goldsboro Messenger: As a cotton market Goldsboro is gradually coming up. The shipments from this point for the month of November foot up 9,872 bales. At this rate the shipments will approximate 30,000 bales this season....The tobacco raised in this section takes the lead in the tobacco markets. Mr. Arnold Borden sold 1,000 pounds a few days ago at Durham, being an average of his crop, for $51.80.

ORANGE.—Durham Tobacco Plant: Another warehouse is talked of for Durham.....The breaks were heavy at all our warehouses last Tuesday and the farmers went home happy. Bright wrappers sold at very high figures..... The Methodist Sunday School contemplates giving a concert on Christmas night. They are making preparations and will doubtless make the occasion an interesting one.

Mrs. Senator Jones's Diamonds.

Washington letter to Philadelphia Times

Senator Jones of Nevada, having replenished his depleted exchequer by a fortunate rise in Sierra Nevada stocks, comes back with his beautiful young wife and maiden sister to occupy his half of the Butler block on Capitol hill. He left here five months ago for his home at Gold Hill, "dead broke," in vulgar parlance, or "busted," as the miners term it. Foreseeing the rise in mining stocks, he invested all he could raise or borrow in Sierra Nevada and reaped a rich return. Still he had not enough to fill the measure of his opportunity. His wife had a splendid diamond necklace, for which he had paid in opulent days the sum of $35,000, and which she, being a retiring little body to give to display, had never worn but once.

"My dear," said he to her one day, "if you will let me invest your diamonds in Sierra Nevada you shall have the proceeds for pin-money."

"As you please," said the dutiful little woman. "You know I never wear them."

Senator Jones is not the man to go hawking his wife's jewels about the streets, so he offered them to the first Jew he met and received $12,000 for them, which he invested on margin in her name, and to-day she is worth $110,000 in registered bonds. He paid his debts, canceled the mortgage on his $100,000 worth of furniture, which Ben Butler held as collateral for three years' rent, and in less than half a year returns with several millions to spare. And that is the way they do things "out West." The Jones family will give several grand entertainments during the winter, a la San Francisco.

The Negro's Northern Friends.

Washington Post.

The Northern Republicans are, according to Mr. Blaine, "the friends" of the negro. What but swindling and plundering have they done for him since he became a voter? In what way has Mr. Blaine or his party shown friendship for the Southern freedmen? Or what use has been made of him except to help Republican thieves to fatten on the plundered white people of the South? And from the whites of that section, Mr. Blaine says, the negro "has nothing to hope and everything to dread." God help the millions of homeless, landless, dependent colored people if they shall imbibe Mr. Blaine's false doctrine of hate; and God pity them if the men who own the land—the men of property, brains, character and influence in the South—shall assume the hostile, unnatural and unchristian attitude which Mr. Blaine assigns them. The only friendship that can much benefit the poor colored man—and nearly all of them are poor—is the friendship of the men who can give them employment, and thus furnish them means to support their families and provide for helpless age. This friendship they have when their Northern white "friends" do not fill their crude brains with wild dreams of absurdities and impossibilities.

Love Rather Mixed.

A strange story is told of two Campbellite Deacons, Dr. Burton and Druggist Aikins, of Robard's station, a small railroad village in western Kentucky. Each became enamored of the other's wife, to the mutual satisfaction of all the quartet but the druggist's wife a young woman of 21 years, who was unconscious of what was going on. While the two women were away on a visit together, their husbands grew confidential over their cups, and finally agreed in writing, to swap wives, the one that backed out first to forfeit $5, and one of the doctor's four children to go with his wife to the childless druggist. When the objects of barter returned, Dr. Burton's spouse was agreeable to the exchange, but Druggist Aikins's better half procured a revolver when her husband insisted that she should agree to it, and informed her father of the strange proceeding. The three willing partners to the bargain fled from town, but the father and wife pursued the druggist, overtook him and made him promise to return to his legal mate.

That true friend to all suffering with Colds and Coughs, Dr. Bull's Cough Syrup, will always help and never disappoint you, as do other cough remedies.

A CERTAIN AND SPEEDY
CURE FOR SCROFULA.

FACTS ARE STUBBORN THING

TRADE MARK TRADE MARK
(Registered.)

A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Scrofula with Mrs Person's father. Mrs. Person lives in Franklinton, or in that section. A child was born to Mrs. Person, and it had the Scrofula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and had away in an upstairs drawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got tee Whiskey, and did as directed to the t'nth. Her child now lives well and hearty. More than this: Only a few months since a South Carolinian, whose name has slipped us, was suffering with some scrofulous affection on the heel. He had been to the Hot Springs in Arkansas, and from there he went to Kittrell Springs. Not ding dong any good at. At Kittrells they told him of Mrs. Person's recipe, and Dr. —— wrote to Mrs. Person if she cured that South Carolinian her receipt was worth money. And the south Carolinian sent her word if she cured him he would give her five hundred dollars. She sent him directions what to do, and added if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shortly afterward sent Mrs. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Bless us, the old Indian. We would like to have one for a near neighbor."

UNEQUALLED AS A BLOOD PURIFIER.

MRS. JOE PERSON:

The medicine I purchased of you last winter proved of lasting benefit to my son, who was troubled with 27 running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after commencing the use of your remedy, he was perfectly restored, and is to-day quite sound and healthy. As a TONIC AND BLOOD PURIFIER IT HAS NO EQUAL. Hoping that you may be spared for many years of usefulness, I remain, Very respectfully,
L. J. STOKES.

AS A TONIC AND ALTERATIVE

MOORESVILLE, IREDELL Co., N. C.

Being desirous of adding my testimonia to others, concerning the merits of Mrs Joe Person's Remedy for Scrofula, I take pleasure in saying that as a tonic and alterative I do not think it has an equal. I have fairly tested it, and after trying Vegetine, Sarsaparilla, Wineger Bitters, and various other remedies, I have no hesitation in pronouncing it far superior to any TONIC I have ever used. When I commenced using Mrs. Person's Remedy I was very weak, complection sallow, and now I am WELL,
Respectfully your friend,
MRS. H. T. BROWN.

THREE CHILDREN IN THREE WEEKS.

CASTALIA, N. C.

MRS JOE PERSON:

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scrofula. I hardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you to be sure and call on me. Yours truly,
WM. H. ABALNGTON.

"It will Cure if Fairly Tested."

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my appetite increased before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this reason it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.
I am, respectfully,
JAMES A. MORRIS.
KITTRELLS, N. C.

My receipt for the cure of Scrafula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general tonic and Blood Purifier. It is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood and probably for other diseases.

A CASE OF CANCER.

FAYETTEVILLE, N. C., Aug. 12, 1878.

MRS. JOE PERSON:

Dear Madame—I have been using your Remedy for Scrofula over five months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years. It has taken off my upper lip and a good part of my nose. When I began to use your remedy it was growing rapidly worse, but the medicine seemed to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days, it then seemed to start anew, and grew worse very fast until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action. It would miss every third or fourth beat, then at first times it would increase in its action, and run up to 200 beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and Alterative, I do not think it has any superior. I have been using all the most powerful alteratives known to the medical profession for the last 12 years and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative, give it a trial, and I do not think they will be disappointed.
Very truly and Respectfully,
JOHN BUIE, Box 141,
Fayetteville, N. C.

——Complaints are made, and properly, about the failure of the authorities to keep the sidewalks free of cotton bales. This matter needs attention.

——While at work on a building at the corner of Blount and Martin streets, yesterday morning, a couple of laborers fell from a scaffold, some 20 feet, but were not seriously hurt.

Convicts.

Deputy Sheriff I. B. Abbott, of Craven, brought up four negro convicts yesterday. They were: Arthur Ferrell, larceny, 1 year; George Willis, larceny, two years; Aaron Eatonton, buggery, 2 years; Jacob Grimes, larceny, 2 years.

Died.

Robert D. Osborne, son of the late Judge Osborne, of Charlotte, died in the Lunatic Asylum yesterday morning, in the 34th year of his age, after an illness of several weeks. By order of his family, Dr. Grissom will express his remains to Charlotte to-day.

Lively.

There was an unusual amount of bustle on the streets yetterday. The number of cotton wagons was larger than for some time, and this fact, coupled with the number of brisk walkers, made the thoroughfares wear a city like appearance.

Holidays Drawing Near.

Now that the holidays are drawing near, it is right that the people should know where to buy their Xmas goods. J. H. Bragassa is the man. He can supply you with toys from 5 cents up. And there is no end to the goodies he has. Look at his advertisement

Milton Nobles.

This brilliant and versatile actor, supported by his fine troupe, rendered the exciting play of Phœnix to a large and enthusiastic auditory, at Tucker Hall, last evening. He has, in the highest degree, the appreciation of the Raleigh public. Of the merits of the play it is useless to speak, as it is perhaps unequaled among melo-dramatic performances. Good wishes and good luck attend the Phœnix everywhere.

Will it be Done?

Some time since, it will be remembered, there was quite a movement in favor of the building of a new court house. At this time several counties, availing themselves of improved financial conditions, are taking steps to improve the county buildings. Will not the Board of Commissioners try to give this county a suitable structure, in lieu of the present unsightly affair that now stands in all its hideousness? Let some steps be taken in the matter.

Y. M. C. A.

For the want of a quorum there was no meeting of the Young Men's Christian Association last night, and the meeting was adjourned to meet again on Tuesday night next, the 17th, and all the ministers of the city are requested on next Sabbath to call the attention of their congregations to this meeting. There is great and increasing destitution in the city and even thus early there has been great suffering, and unless active measures are promptly taken, many of the worthy poor will perish during the severe weather of January, February and March.

John T. Raymond.

The public will this evening have the peculiar pleasure of witnessing the first appearance of one of the most talented actors on the stage, at Tucker Hall. The play to be produced is a dramatization of Mark Twain's "Gilded age." and the central figure, that of "Col. Mulberry Sellers," is assumed inimitably by the celebrated John T. Raymond. The play is a good hit at many of the peculiarities of American life, and the famous expression "there's millions in it," shows up the national mania for risk and speculation. The opportunity of seeing this famous actor, who is ably supported, should on no account be missed. All will be pleased with the play.

The Week of Prayer.

The week of prayer has become a fixed institution among many of the Protestant denominations in the South as well as in the North. The following is the schedule of subjects agreed upon by the Evangelical Alliance, which has the arrangements in charge: For Sunday, January 5th, as a subject for the pulpit, "Christian Union;" Monday, January 6th, Thanksgiving for the blessings of the year past, and prayer for their continuance; Tuesday, January 7th, Prayer for the Church of Christ, its ministers, its growth in grace and its enlargement; Wednesday, January 8th, Christian education, the family, the young, colleges, seminaries of learning, Sunday and other schools, Christian associations of young men and young women; Thursday, January 9th, for nations, rulers and people, for peace and religious liberty on the earth; Friday, January 10th, the press, for a blessing on publishers, editors and authors, the cause of temperance and other social reforms; Saturday, January 11th, home and foreign missions, and the conversion of the world. On Sunday evening, January 12th, public union prayer meetings will be held for prayer and praise.

Tribute of Respect.

INDEPENDENT ORDER OF O. F.,
SEATON GALES LODGE, No. 64.
Raleigh, N. C., Dec. 12, 1878

WHEREAS, Seaton Gales, Past Grand Master and Past Grand Representative of the jurisdiction of North Carolina, departed this life, in Washington City, D. C., on the 29th day of November, 1878; and, whereas, Brother Gales was long and prominently identified with the Order of Odd Fellowship, attaining its highest honors; therefore,

Resolved, That in the death of Bro. Gales the Order of Odd Fellowship has lost a true friend and an eloquent defender and advocate; our city and State a distinguished citizen and a favorite son; one endeared to us by all the ties which bind man to man and brother to brother.

Resolved, That we, the members of a Lodge of Odd Fellows, whose name has heretofore testified our affection for the departed while he lived, have especial cause to sorrow for him when dead; and that while we thus preserve his name, with like esteem, we will cherish his memory.

Resolved, That while we may no more gaze upon the manly form, look into the kindly eye, nor listen to the matchless eloquence of his words, it is our privilege to mourn with those who mourn and to sorrow with those who grieve for our departed friend.

Resolved, That the Recording Secretary of this Lodge be directed to transcribe these resolutions upon a page of our book of proceedings, to be dedicated to the memory of our lamented brother, and that he transmit a copy thereof to his family, under the seal of this Lodge.

Pardoned.

At December Term, 1877, Charles McAllister, white, was convicted of larceny, in McDowell county, and sentenced to the penitentiary for 5 years. His wife was devoted to him and followed him here, and daily besought executive clemency. She was a daily caller at the Capitol, and notice was taken in the papers of her earnest efforts to secure her husband's pardon. At last the faithful creature has been rewarded. A pardon was yesterday issued to McAllister which bore the endorsement: "Pardoned, on recommendation of the Solicitor, county officials, numbers of prominent citizens, also in recognition of the faithful devotion of his wife, which has been such as to do honor to her sex."

Remarkable Result.

It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives try just one bottle. Regular size 75 cents. Sold by all Druggists in America. *

Wine Products of New Jersey.

This state is becoming celebrated for grape culture and wine. Some of the richest port in the world is produced in New Jersey by Mr. Alfred Speer, whose name has become celebrated as a producer of strictly pure unadulterated wine. The port grape Wine of Mr. Speer was awarded the highest premium at the centennial, is not bottled or put in market until it is four years old, and has become thoroughly fine and mellow. It has proved itself a wonderful assistant to physicians, who prescribe it from the fact that they have hitherto found it difficult to obtain a pure Port Wine. This wine is recommended for debilitated persons; and is given to consumptives to use with fresh raw eggs, and as a medium for taking cod liver oil. The difficulty of getting an imported or even a pure California Port is well understood to be so great as to preclude Doctors from allowing their patients to run the risk of its use. Mr. Speer being aware of this fact has taken the utmost care in the making of his wine from the ripest and finest grapes, so as to supply the imported Wines by producing a genuine article. His wines are known by chemists to be pure and the most reliable for medicinal purposes. The Druggists throughout the country sell it as bottled by Mr. Speer.—N. Y. Tribune. LIVELY STOCK OPERATIONS.

The current of recent events has given great impetus to business in Wall street and many successful turns are reported where immense profits are made in short periods. The most successful way that we have heard of yet or op rating in stocks is by the combination Method of Messrs. Lawrence & Co., Banker, New York. By this system thousands of orders in various sums are pooled into one vast capital and operated under the most experienced and skilful management, thus securing to each shareholder superior advantages and profits, no possible in any other way. Profits are paid at end of 30 days. J. Jones, of Boston made $74 .30 on an investment of $100. Many other are doing as well or better. Capital in any amount from $ 0 to $ 00 0 can be used with equal proportionate success by this Combination or Co-operative Method. $5 would make $75, or 5 per cent on the stock; $100 would return $ 0 or per cent. during the month, and so on, according to the market.
